Director

Placement Department

B.B.A.U Lucknow,

<u>Subject</u>: Job posting for Andrologist/Junior embryologist/Lab technician at Javitri test Tube Baby Center, Lucknow.

Javitri Test Tube Baby Center is Lucknow's premiere and largest provider of infertility services. The center is seeking the talents of a highly skilled and experienced Embryologist/Andrologist to fill a full time position at our multi-physician, multi-site practice in Lucknow. Reporting to the Lab Supervisor, you will be working collaboratively within the Lab Department and with the total network of offices to provide timely, proficient lab services to our patients.

General Duties include but are not limited to the following:

- Routine embryology procedures including vitrification
- Perform Andrology testing
- Perform all QA/QC/PT procedures
- Perform equipment maintenance and calibration procedures as required.
- Document patient care services by charting in patient and department records.
- Maintain safe and clean working environment by complying with procedures, rules and regulations.
- Operate specialty equipment per manufacturer's recommendations and/or policy and procedure.
- Clean/maintain instruments per protocol and according to OSHA guidelines.
- Stock work area with required supplies as necessary.

Skills & Requirements

The ideal candidate will have B.S. or M.S. degree in biologic science. We will accept candidates without any experience as well. Complete training will be provided in all the aspects of andrology and embryology to the selected candidates. Weekend and holiday rotation availability is also required.

Javitri Test Tube Baby Center offers a highly competitive compensation and benefits package, a work culture that supports its' employees, celebrates their achievements, and rewards them as they take on new challenges.
